

The Aquarium Detective

Read the following clues and then guess the animal that answers the question “who am I?”

1. I am a marine mammal who uses blubber to keep warm. I eat fish and squid and can use my front flippers to splash my trainers.

Who am I?

2. I am a reptile with no feet but I can still move around. I have scales all over my body. I stick my tongue out a lot because it helps me to smell things.

Who am I?

3. I have fixed eyes, one on the end of each of my five arms. I stick to the sides of rocks with my tube feet, which are just like suction cups.

Who am I?

4. I am a bird with feathers and wings, but I cannot fly. Instead, I use my wings to help me swim and dive deep in the ocean.

Who am I?

5. I am a fish with a lot of teeth. I can lose some of my teeth when I eat. Lots of people are scared of me, but I rarely attack people. I would prefer to eat fish and squid.

Who am I?

6. I have spines all over my body for protection and to help me move around. You can touch me here at the aquarium and I won't hurt you.

Who am I?
